

# Release notes

## Module: Family Welfare Assistant (FWA) eRegister

Version: 2.7

Date: May 15, 2019

### About the release:

eMIS-FWA 2.7 is a new release (based on the version of 2.4) that contains list of issue fixes, enhancements and some new features.

### Issues fixed:

1. PRS: Multiple units are displayed during Khana creation were shown earlier which has been resolved in instead of existing PRS
2. PRS and ELCO: FWAs who have been assigned multiple wards/units could now see all wards/units at every level
3. ELCO: age mismatch between member and ELCO list resolved (resolved in search results also).
4. ELCO: husband name made editable in the ELCO registration page.
5. Death module: ELCO number is not shown in death view list for male death.
6. Death module: Name of the husband is displayed for married women
7. 0-15 month module: View-only page for EPI has been modified to entered EPI data
8. WorkPlan: added fields for: (i) participation in satellite clinic, (ii) EPI activities, (iii) Court-yard meeting (Uthan Boithak), (iv) school meeting and (v) mobile movie display.
9. New Tab [Model: Lenovo TB-8504X] related issues (crash & UI) resolved.
